COMMUNITY GUIDE 2024-2025

Revised and updated June 2024

If you have a disability and need to obtain this Community Guide in an alternative format, please contact University Housing at 706-542-1421 or housing@uga.edu.

WELCOME FROM THE EXECUTIVE DIRECTOR

Dear Bulldogs,

On behalf of all housing staff, I welcome you to the University of Georgia! University Housing’s mission is to provide comfortable, affordable and secure on-campus housing options in residential communities where students’ academic success and personal growth are encouraged and supported. Your residence hall will be your home for this next year, and we want to partner with you to ensure a focus on safety and belonging for all who live on campus.

We encourage you to get to know the teams that are working in your community. The resident assistants, residential belonging assistants, community services assistants and residential building services workers are likely to be a part of your daily interactions on campus. I encourage you to make a positive impact on your community and consider running for a community council position. The staff and the community council are both ways to connect you with other students, connect with the larger campus and community resources, and to set you up for success at UGA.

Please enjoy the year, and let us know how we can help with meeting your goals.

Sincerely, and go Dawgs!

Linda Kasper
Executive Director for University Housing

ABOUT UNIVERSITY HOUSING

University Housing fosters a community of more than 9,000 residents where their academic success and personal growth are encouraged and supported. We achieve our mission through staff training and curriculum-based student engagement focused on community building, interpersonal skills, wellbeing, and social awareness and responsibility.

MISSION STATEMENT

University Housing provides comfortable, affordable and secure on-campus housing options in residential communities where the academic success and personal growth of residents are encouraged and supported.

ASSURANCE OF COMPLIANCE

All residents are expected to read, understand and conduct themselves in accordance with the terms, conditions and policies set forth in the University Housing contract, the Community Guide, and the University of Georgia Code of Conduct, as well as all federal, state and local laws. Residents are also expected to adhere to the information shared through emails, posters, policy changes or written/verbal correspondence issued by University Housing or its agents. Although guests may not be residents or students, the policies and procedures apply.

Failure to adhere to any policies, rules and regulations may result in documentation, referral through a student conduct process, involvement of the UGA Police Department, and/or a housing contract review. These actions may occur simultaneously, separately and/or independently. For questions and clarifications regarding policies, rules and regulations in University Housing, please contact the respective community staff (e.g., residence hall director, assistant director).

NON-DISCRIMINATION AND ANTI-HARASSMENT POLICY

The University of Georgia (“the University”) is committed to maintaining a fair and respectful environment for living, work and study. To that end, and in accordance with federal and state law, University System of Georgia policy, and University policy, the University prohibits harassment of or discrimination against any person because of race, color, sex (including sexual harassment and pregnancy), sexual orientation, gender identity, ethnicity or national origin, religion, age, genetic information, disability, or veteran status by any member of the University Community (as defined below) on campus, in connection with a University program or activity, or in a manner that creates a hostile environment for any member of the University Community. Incidents of harassment and discrimination will be met with appropriate disciplinary action, up to and including dismissal or expulsion from the University.

Bias based on the protected categories of race, color, sex (including sexual harassment and pregnancy), sexual orientation, gender identity, ethnicity or national origin, religion, age, genetic information, disability, or veteran status will not hinder employment, study or institutional services, programs or activities. Bias factors will not be permitted to have an adverse influence upon decisions regarding students, employees, applicants for admission, applicants for employment, contractors, or volunteers or participants in or users of institutional programs, services, and activities. The University of Georgia will continue in its efforts to maintain an institutional environment free of such bias and restates its policy prohibiting the interference of such bias.
The university will follow the Board of Regents Student Sexual Misconduct Policy 6.7 found at http://www.usg.edu/policymanual/section6/C2655. All allegations of discrimination and harassment not covered by the Board of Regents Student Sexual Misconduct Policy based on the protected categories will be handled pursuant to the University’s Non-Discrimination and Anti-Harassment Policy.

Questions regarding the Non-Discrimination and Anti-Harassment Policy should be directed to the UGA Equal Opportunity Office at (706) 542-7912 or ugaeoo@uga.edu.

FREEDOM OF EXPRESSION POLICY
No rights are more highly regarded at the University of Georgia than the First Amendment guarantees of freedom of speech and expression and the right to assemble peaceably. Such opportunities must be provided on an equal basis and adhere to the basic principle of the University’s being neutral to the content and viewpoint of any expression. In order to achieve this objective, while at the same time fulfilling its educational mission, the University may regulate the time, place and manner of expression as outlined in the University Freedom of Expression Policy. These regulations are intended to facilitate expressive activity protected by the First Amendment, while avoiding undue disruption of University activities, protecting and preserving University property, and providing a safe campus environment for all members of the University community and for individuals engaged in expressive activity.

Additional information regarding the Freedom of Expression Policy can be directed to the Office of the Dean of Students at 706-542-7774.

ACADEMIC HONESTY
The University of Georgia seeks to promote and ensure academic honesty and personal integrity among students and other members of the university community. A Culture of Honesty, UGA’s academic honesty policy and procedures, was developed to serve these goals (view the entire policy at https://honesty.uga.edu/Academic-Honesty-Policy/). All members of the academic community are responsible for knowing the policy and procedures on academic honesty.

UNITED STATES CENSUS SURVEYS
Residents in University Housing may be selected by the U.S. Census to participate in a variety of surveys (e.g., American Community Living Survey, Current Population Survey, National Crime Victimization Survey). If selected to participate, residents will be provided with a letter outlining the details of the specific survey. This letter is often delivered directly by a U.S. Census worker prior to conducting the survey. Some of these surveys are mandatory—required by law to be completed—while others are voluntary. Residents are encouraged to comply with all U.S. Census requests as required by law.

U.S. Census workers with proper identification are permitted in University Housing facilities without an escort in order to conduct official business. Residents may verify field representatives by entering in their name at https://www.census.gov/cgi-bin/main/email.cgi
COMMUNITY LIVING STANDARDS
As a member of UGA’s residential community, you are living in a richly diverse setting that encourages all people to realize their fullest potential. The very word “university” is from the Latin “universitas,” meaning the whole, the universe, a community, society. Such a community must allow for many opinions and beliefs, recognize and respect individual differences, and offer a level of personal security that fosters growth. We all arrive on campus with varying degrees of knowledge and understanding about people different from ourselves, and the opportunity to learn about others is one of the greatest benefits of life at a major university. University Housing offers a community that encourages residents to develop the personal skills and perspectives necessary to become positive and productive members of society. A key component of future success is the ability to acknowledge individual differences and ideas. The residential areas are comprised of students and staff of different backgrounds, religions, races, sexual orientations, abilities and cultures. As stated in the University of Georgia Non-Discrimination and Anti-Harassment Policy, the University prohibits harassment or discrimination against any person because of race, color, sex (including sexual harassment and pregnancy), sexual orientation, gender identity, ethnicity or national origin, religion, age, genetic information, disability, or veteran status by any individual on campus, in connection with a University program or activity, or in a manner that creates a hostile environment for any member of the University Community. We are all threads of a common fabric, and it is up to each of us to encourage productive interactions and relationships among our community residents; there is much to be taught, learned and shared.

ROOMMATE BILL OF RIGHTS
A successful community in University Housing depends on thoughtful consideration and common courtesy among roommates and neighbors. The basic rights of a roommate include the following:

- The right to live in a clean building and room
- The right to expect that a roommate will respect one’s personal belongings
- The right to remedy grievances. Housing staff are available to assist in resolving conflicts
- The right to read and study without undue interference in one’s room or apartment
- The right to sleep without undue disturbance from noise, roommate’s guests, etc.
- The right to free access to one’s room, furnishings and bathroom (if applicable) without pressure from a roommate
- The right to personal privacy
- The right to have guests during visitation hours with the expectation that guests respect the rights of the host’s roommate, as well as the rights of other residents within the community

Residents will complete a Roommate Success Plan. A Roommate Success Plan is intended to serve as a roadmap between roommates or suitemates to assist them in navigating the year living with others. Together, roommates or suitemates will schedule a meeting with their resident assistant to go over this plan. Included in this plan are suggested topics to help students learn more about each other and to build a cooperative relationship.

STUDENT CONDUCT PROCEDURES
In order to facilitate the desired environment and educational goals of the university and to protect the rights and privileges of its students, the university has adopted conduct regulations for individuals and organizations and has established a conduct process. When a student is suspected of violating a conduct regulation, the Office of Student Conduct is responsible for
investigating alleged conduct regulation violations and coordinating the conduct process, unless another office is designated in the Code of Conduct.

Students are expected to abide by the conduct regulations in the Code of Conduct both on and off campus, including in the residence halls. The following actions are referenced in the Code of Conduct:

1. Academic dishonesty
2. Other acts of dishonesty
3. Disorderly conduct (including sexual harassment)
4. Alcohol and other drug related misconduct
5. Theft, damage and disregard for property
6. Fire safety and sanitation
7. Weapons
8. Unauthorized entry or use
9. Student housing
10. Computer use
11. Gambling
12. Hazing
13. Interference with the orderly operation of the conduct process
14. Shared responsibility for violations

For further information regarding the regulations of the Code of Conduct and the Student Conduct process, contact the Office of Student Conduct at 706-542-1131 or conduct@uga.edu.

POLICIES AND REGULATIONS

The following policies and regulations govern resident and guest behavior within University Housing facilities. Allegations of policy violations may be considered a violation of both the Code of Conduct and University Housing Policies and Regulations.

Alleged violations of university housing policies and regulations may result in the following actions: residential policy review, University Housing contract review, referral to the Office of Student Conduct, and/or referral to law enforcement. These actions may occur simultaneously, separately and/or independently.

ACCESS CONTROL
Residents must have their UGACard at all times in order to gain entrance into their assigned residence hall (excluding University Village). Residents must establish a personal identification number (PIN) through the housing website in order to access their residence hall. To enter the hall in which they are assigned, residents hold their card near the reader, enter the four-digit PIN and press #.

Residents who live in buildings with community desks are assigned an access sticker, which should be placed on their UGACard. Residents of these communities must show the ID with sticker to the desk staff in order to gain access to the community.

Residents having difficulty with their card should contact their community hall staff to initiate the troubleshooting protocol.
Lost UGACards must be replaced at the UGA OneCard Office in the Tate Student Center.

University Housing and residents work together to maintain the security of students and their property. At no time shall any resident, guest or staff member directly or indirectly bypass (also known as tailgating) or disable residence hall access control systems through door propping, blocking of latches or any other methods. Sharing UGACards and/or PIN information with others is prohibited.

Residents who do not have their UGACard must complete the access pass-in process at the desk to obtain entry into their assigned residence hall. Residents are permitted to have up to ten access pass-ins per semester. On the fifth access pass-in the student will receive an email reminding them to carry their UGACard. On the tenth access pass in, a housing staff member will follow up with the resident to remind them of the need to carry the UGACard at all times and to see if something is wrong with the resident’s card.

ALCOHOL AND OTHER DRUGS
Under the Code of Conduct, the following actions pertaining to alcohol and other drugs are prohibited and constitute a violation of the Code of Conduct:

- Use or possession of alcoholic beverages except as permitted by law and university alcohol and other drug policies
- Providing, distributing, selling or facilitating the use or possession of alcoholic beverages except as permitted by law and university alcohol and other drug policies
- Disruptive or disorderly behavior related to the consumption of any alcoholic beverage
- Use or possession of narcotics or other controlled substances except as permitted by law and university alcohol and other drug policies
- Providing, distributing, selling or facilitating the use or possession of narcotics or other controlled substances except as permitted by law and university alcohol and other drug policies

In addition to the university’s alcohol and drug policies, University Housing staff will enforce the following policies:

- Possession of alcohol containers (even if empty) by residents under the legal drinking age of 21 is prohibited
- Underage students found in possession of alcoholic beverages will be asked to dispose of the alcohol under supervision of housing staff
- Common source containers containing liquid (e.g., kegs, pony kegs, punch bowls, beer funnels or other containers) are prohibited in all residential communities, including apartments
- Residents of legal drinking age may consume alcoholic beverages in the privacy of their room or apartment unit; no alcoholic beverages may be consumed in any other areas of any residence hall, including common areas
- Open containers containing alcoholic beverages are not permitted outside individual residence hall rooms or apartment units
- Monies collected or generated by University Housing may not be used to purchase alcohol. Alcoholic beverages may not be sold, under any circumstances, or given away at organized functions within residential communities
APPLIANCES AND ELECTRONIC DEVICES

The capacities of the residence hall and apartment building electrical systems are limited and overloading these systems can present fire and safety hazards. Additionally, there are certain types of electrical appliances that are dangerous to use in residence halls or apartments. Small appliances, electrical accessories and cords must be maintained in safe operating condition and marked with the Underwriters Laboratory (UL) approved label. The following guidelines govern the use of electrical appliances, outlets and extension cords within residential communities:

- The use of Energy Star appliances and LED bulbs is recommended
- Surge protectors and extension cords may be used under the following conditions:
  - Surge protectors should be plugged directly into the wall
  - Only one extension cord is permitted to connect an appliance with an electrical outlet. Extension cords may not be used in a series
  - Only properly grounded extension cords may be used with appliances requiring grounding
  - Multiple-outlet adapter “strips” with built-in circuit breakers are recommended when the desired number of outlets exceeds the number of available outlets in the room
- Resident-owned refrigerators (maximum size 4.0 cubic ft.) are allowed in residence hall rooms provided they do not exceed the following electrical requirement: They operate at 118 volts (plus or minus 5%), 60 Hz, and do not draw more than 1.5 amps or 180 watts of power
- Appliances and electrical devices, such as radios, microwaves (1.0 cubic ft. and 700 watts), stereos, desk lamps, computers, TVs and electric blankets are permitted, provided the total power requirements do not overload the room’s electrical system
- Any electrical appliance with an exposed heating element is prohibited
- Irons may be used only with an ironing board and should be unplugged when not in use
- Resident-owned air conditioners and space heaters are prohibited
- Halogen light bulbs are prohibited due to the danger of fire associated with these types of bulbs
- Plug-in air fresheners are potential fire hazards and are prohibited
- All appliances and electrical devices—including cords—must be kept in safe operating condition and must be compliant with UL standards
- Outside antennas and satellite dishes are prohibited
- For additional guidelines on appliances, refer to COOKING GUIDELINES

BICYCLES/TRANSPORTATION DEVICES

Non-combustible bicycles and transporting devices

- Non-combustible bicycles and transporting devices may be stored in bicycle storage facilities, on bike racks or in student rooms, as long as storage is not impeding an egress
- Non-combustible bicycles and transporting devices may not be operated or stored in hallways, stairwells, kitchens, lobbies or any public area inside the residence halls
  - Any bicycle or transporting device secured to an unapproved location or left in an unapproved location inside or outside of the residence halls will be removed and subject to the Lost and Found and Abandoned Property Policy
- Non-combustible bicycles should only be attached to approved university bicycle racks and should not be fixed to any other object
- Non-motorized transporting devices may not be charged in any location in the residence halls other than student rooms.
Motorized devices
- Motorized devices with a combustible engine are not permitted inside residential halls due to fire safety concerns. In addition, these vehicles should not be parked near or against a building
- Motorized devices found parked in a non-designated area may be towed at the owner’s expense
- Information on parking permits and parking spaces for motorcycles and scooters on campus can be found at https://tps.uga.edu/parking/rates
- Residents who require a motorized device as a medical accommodation should register their accommodation with the Disability Resource Center

COOKING GUIDELINES
Cooking in residence hall rooms is limited to the following appliances, which may only be used for their intended purposes:

- Sealed-unit coffee makers
- Sealed-unit popcorn poppers
- Microwaves (not to exceed 1 cubic foot and 700 watts)

Community kitchens
Community kitchens are provided in each residence hall. Private or semi-private kitchens are provided in East Campus Village apartments and University Village apartments.

In addition to the appliances listed above, the following appliances may be used in private/semiprivate kitchens only.

- Air fryers
- Crock pots
- Sealed-unit hot pots
- Toasters
- Toaster ovens

Food being prepared and cooked must not be left unattended. In addition, residents must ensure all food preparation and cooking appliances are turned off prior to leaving the kitchen or cooking area.

Residents should keep combustible materials away from cooking units as recommended by the manufacturer.

Kitchens should be kept clean upon completion of use. Cleanliness is essential due to the problems that unsanitary conditions create (e.g., odors, pests). Residents are held responsible for any damage or excessive clean-up charges resulting from cooking.

Personal items should not be left in the community kitchens after use. Unattended items will be removed and subject to the Abandoned Property Policy.

DECORATIONS
General requirements
- Alcohol containers may not be used as decorations
• All electrical accessories must carry an Underwriter’s Laboratory (UL) certification
  Extension cords may be used.
• Electrical devices may not be spliced into existing wiring
• Residents working on room decorating projects are responsible for clean up; failure to do
  so will result in a clean-up charge. Clean-up requirements apply to construction of
  furniture
• When a resident moves out of a room that has been modified, the room must be returned
  to its original state
• All carpets must be rated fire-retardant Class A or B; all curtains are to be made of fire-
  retardant fabrics
• No contact paper may be applied to any university property. If contact paper is found in
  a residence hall room, the residents of the room will be held financially responsible
• Sources of light should never be covered with paper or any other materials
• Due to the material used in construction of walls, limitations on the types of adhesives
  and wall hangers are designed to reduce possible damages. In all communities, adhesives
  such as painter’s tape and Command Strips, are appropriate. Residents should not make
  holes in the walls; residents should use the bulletin boards or tack strips provided
  whenever possible. Residents shall be charged for any damages to a room above and
  beyond normal wear and tear. Tape (aside from painter’s tape), nails, screws, poster
  mounts and screw mounts are not permitted
• Residents may use thumbtacks and pushpins to hang lightweight items in Black-Diallo-
  Miller Hall, Brumby Hall, Building 1516, Busbee Hall, McWhorter Hall, Rooker Hall,
  Russell Hall, Rutherford Hall and Vandiver Hall only
• No stickers other than the university inventory numbers are to be placed on room doors,
  furniture, glass surfaces or any university-owned property
• Residents may not paint their rooms
• Decorations along the walls of hallways and on the outside of doors should be kept to no
  more than 10% of the surface community to reduce the risk of fire, per the fire code
• No decorations should cover or in any way inhibit electrical outlets, thermostats, vents or
  the operation of life safety devices such as smoke detectors, pull stations, fire extinguishers
  or sprinkler heads
• No decorations should hang outside of windows
• No decorations may should from hallway ceilings
• No items may cover the glass portion of a door in a way that blocks vision
• No modifications to plumbing or electrical fixtures are permitted
• No windows or doors that are part of a residence hall, including resident rooms, may be
  decorated in a manner that defaces or damages the property or creates a fire hazard

Seasonal and holiday decorations
• All residents and staff are encouraged to be inclusive in selecting holiday decorations
• No live or metal Christmas trees are permitted in any University Housing facility
• Decorations in common areas should be approved by a member of the community’s
  housing staff
• Artificial snow or any other material that is difficult to remove or might result in damage
  when removed is not permitted. Should any damage occur, the residents of the room will
  be held financially responsible.
• Leaves, grass, straw or other flammable, naturally occurring items should not be
  gathered and placed in common areas of residence halls or student rooms
DISRUPTIVE BEHAVIOR
Behavior that interferes with the normal functioning of a residential facility or unnecessarily impedes the rights of students, residents or staff is prohibited. This includes, but is not limited to: behavior where the safety of any persons or property is compromised; hall sports, water fights, pranks, displays/demonstrations that create a disruptive environment; lewd or indecent behavior; or where the actions of a person or group require the response of a housing staff member or other university employee.

Individuals or groups who engage in disruptive behavior may be charged for any damage to property.

DOOR CLOSURES AND EXIT DOORS
Automatic door closures and exit doors are in accordance with the fire code. Students are not permitted to prop interior doors, except in buildings with automatic door closures (Black-Diallo-Miller Hall, Building 1516 and Rutherford Hall). Exterior doors may not be propped at any time. In addition, modifications should not be made to door closures or exit doors at any time. Doing so may compromise the safety and security of residents residing in the building.

ESSENTIAL OIL DIFFUSERS
Essential oil diffusers are not permitted in the residence halls. Essential oils are known to contribute to skin irritation, allergic reactions, respiratory symptoms and even hormone-related symptoms in some individuals. In addition, when not properly cleaned, mold can form and collect within these diffusers—further spreading spores into the living environment upon use.

If an essential oil diffuser is seen or used in University Housing, residents will be asked to unplug, pack and/or remove the device from the premises.

FIRE SAFETY
All residence halls and apartments are equipped with building-wide fire detection systems and alarms, which are linked to the UGA Police Department communication center. University Housing facilities are also equipped with automatic sprinkler system heads and smoke detectors.

In addition to the fire equipment outlined above, all apartments are furnished with fire extinguishers.

Fire equipment
Tampering with fire extinguishers, smoke detectors, fire doors, sprinkler heads and/or other safety equipment is prohibited. Smoke detectors should never be disconnected or covered. If smoke detectors begin to beep, residents should submit a work request to have the battery replaced. If sprinkler heads are tampered with (e.g., hanging items from them), they may engage the sprinkler system causing significant water damage to the building, university property and student possessions.

Fire hazards
Burning candles, incense or lighting any other open flame in the residence halls/apartments is prohibited.
The reckless obstruction of a fire exit in a residence hall/apartment or at a University Housing-sponsored activity is prohibited. Stairwell and other fire doors may not be propped open unless supported by a magnetic fire door closer. Combustibles or debris may not be kept in corridors or stairwells.

Fire alarms
In the event of an alarm, all residents and guests are expected to immediately evacuate the building. Exit the building as safely as possible through the closest means of egress. Failure to evacuate in a timely manner may result in referral to the student conduct process.

Please note that residents must move away from the building and assemble in the evacuation location noted for that building. The designated evacuation area can be found in the chart at the end of this Community Guide. Residents may not impede police, fire and rescue personnel. Anyone who requires assistance in the event of an evacuation, due to a temporary or permanent disability, should contact the staff in their community office immediately. Staff will share this information with the police and fire personnel so they can assist.

Fire drills
In accordance with university regulations, fire drills are conducted in each residential facility at least once per semester. Residents should follow the same procedures for fire drills as they would with any fire alarm and exit the building in a timely manner. All drills will be advertised a minimum of 24 hours in advance. Failure to evacuate in a timely manner may result in referral to the student conduct process.

FIREARMS, WEAPONS AND EXPLOSIVES
In compliance with Georgia law, it is illegal to possess any firearms, weapons or explosives in any University Housing residential facility. Using, possessing, manufacturing, distributing, maintaining, transporting or receiving the items below in residential facilities is prohibited. A firearm or weapon, whether operable or inoperable, is as defined in the Georgia Code (16-11-127.1.2) or any object of like character, including but not limited to:

- Any gun, including paintball, BB, potato, pellet and air soft guns or any device which propels a projectile of any kind
- Any knife, including dirks, bowie knives, switchblade knives, ballistic knives, any other knife having a blade of two or more inches
- Any blades, including straight-edge razors, razor blades, spring sticks
- Any bludgeoning items, including metal knucks, blackjack, any bat, club
- Any flailing instrument consisting of two or more rigid parts connected in such a manner as to allow them to swing freely, which may be known as a nun chahka, nun chuck, nunchaku, shuriken, or fighting chain
- Any disc, of whatever configuration, having at least two points or pointed blades which is designed to be thrown or propelled and which may be known as a throwing star or oriental dart
- Any dangerous weapon, machine gun, sawed-off shotgun or rifle, shotgun or silencer as defined in the Georgia Code
- Any bacteriological weapon, biological weapon, destructive device, detonator, explosive, incendiary, over-pressure device or poison gas as defined in the Georgia Code.
- Any explosive materials as defined in the Georgia Code
- Any hoax device, replica of a destructive device or configuration of explosive materials with the appearance of a destructive device, including but not limited to: fake bombs,
packages containing substances with the appearance of chemical explosives or toxic materials.

Georgia Code prohibits “use of an ‘electroshock weapon’ against another person in a manner other than in defense of self or others.

**LOCK SECURITY**

Residents should always lock their room and/or apartment doors in order to protect the security of their belongings. Keys may not be stored or hidden for use as a “hide-away” key. Residents are only given keys to their assigned room or apartment. If residents misplace their room or apartment key, they may sign out a temporary key at no charge for 30 minutes at the appropriate community desk. Residents who do not return the temporary key within the prescribed period will be assessed a $30 late temporary key fee to their student account. If the temporary key is not returned within 24 hours, the resident’s original key will be considered lost, and a lock change will be ordered at the resident’s expense (see fee information below for lock security fee).

Keys lost or not returned by residents by the designated time will result in a required lock change, which includes a lock security fee. This fee is estimated to be $120 per key, per incident and is assessed even if the lost key is later found. The lockout fee for not returning a temporary key within 30 minutes of signout will be waived when a resident is charged a lock security fee. Excessively checking out a temporary key may result in a lock security fee.

University keys may not be duplicated or loaned to unauthorized individuals.

**LOFTS**

University Housing provides adjustable beds in most of the residence halls. Therefore, the construction and/or installation of lofts is not permitted. Residents may incur an administrative charge for removal of an unauthorized loft. Once they occupy the room, residents may submit a work request for housing staff to raise or lower 17-position adjustable beds.

**NOISE, COURTESY HOURS AND QUIET HOURS**

Quiet hours are periods when noise that is audible one door away from the source is too loud. Quiet hours are observed during the following times:

- Sunday 10 p.m.–8 a.m. Monday
- Monday 10 p.m.–8 a.m. Tuesday
- Tuesday 10 p.m.–8 a.m. Wednesday
- Wednesday 10 p.m.–8 a.m. Thursday
- Thursday 10 p.m.–8 a.m. Friday
- Saturday 2–10 a.m.
- Sunday 2 –10 a.m.

During final exam periods, 24-hour quiet hours are in effect.

Courtesy hours should always be observed when quiet hours are not in effect. During courtesy hours, noise should not be audible three doors away in traditional halls or outside the apartment unit at any given time.

Community councils may vote to modify quiet hours to a more restrictive schedule.
Use of musical instruments in the residence halls is prohibited unless the following conditions are met:

- The use of the instrument is in a designated location (e.g., a piano in a programming room); however, playing instruments even in designated locations is not permitted during quiet hours
- The resident is permitted to play an instrument if they can hear the music only through headphones

Placement of sound equipment or speakers in windows is prohibited.

PETS
Residents may have fish in properly maintained aquariums of 20 gallons or less. Aquariums must be properly maintained and meet UL standards. Each resident is permitted no more than one aquarium. Service and emotional support animals (ESAs) are referenced in the SERVICES FOR STUDENTS WITH DISABILITIES section.

RECYCLING AND TRASH
Residents are responsible for the disposal of their trash in the dumpsters outside the building. Trash cans are included in each unit for this purpose. Residents who fail to properly dispose of trash will be assessed a minimum $70 fee for trash removal.

Residents are encouraged to participate in the community’s recycling program. Recycling bins are included in each unit for this purpose, and residents are responsible for transferring their recyclable materials to the larger recycling bins outside the building. For more information about recycling with University Housing, please visit https://housing.uga.edu/about-us/sustainability/.

RESEARCH IN THE HALLS
Research may be conducted in the residence halls only with the prior written approval of the assistant to the executive director of University Housing.

ROOM/APARTMENT ENTRY
The university reserves the right to enter resident rooms and apartments for the purposes of safety, occupancy verification, facility improvements, conducting routine maintenance, wellbeing checks, managing rooms and apartments in the event of an epidemic or emergency that jeopardizes the well-being of the occupant or other students, and/or maintaining a quiet environment where residents may sleep and study. Students will not be given access to any student room or apartment to which they are not assigned. Student rooms and apartments may be searched for legal cause by civil authorities. In cases of suspected criminal violations, a search warrant issued by a magistrate will be used to authorize the search. Whenever possible, University Housing staff will attempt to notify residents of intended room or apartment entry. After leaving a room/apartment, staff will lock the entrance door.

ROOM/APARTMENT FURNISHINGS
Residence halls
Each residence hall room is furnished with a bed frame and mattress, desk/table/pedestal and chair, waste basket and recycling bin, ladder chest/dresser/closet/wardrobe and Ethernet access points for wired internet. Room size and window dimensions vary from room to room and apartment to apartment.
Residents are not permitted to remove any university furniture from the room. Residents may not move items into their rooms from public areas of the residence halls or other residents’ rooms. University Housing does not provide storage space for resident belongings. For safety reasons, bed risers are not permitted.

**Brown Hall, Payne Hall and Reed Hall**

Brown, Payne and Reed Hall rooms are equipped with a microfridge (a small microwave/refrigerator combination unit).

**University Village**

Most University Village apartments are unfurnished, but are equipped with an electric stove, refrigerator, microwave and a fire extinguisher. Additionally, some apartments include a dishwasher and/or a washer and dryer.

**University Village East (UV East)**

The bedroom is furnished with two adjustable beds, two desks, two desk chairs and two dressers. The living room is furnished with a waste basket and recycling bin, sofa, armchair, two small tables and an entertainment stand. The kitchen contains an electric stove, refrigerator, microwave and a fire extinguisher.

**SMOKING**

In accordance with the Georgia Smoke Free Air Act of 2005, the use of all forms of Tobacco Products on USG Properties is expressly prohibited. Further, the advertising, sale, or free sampling of Tobacco Products on USG Properties is prohibited unless specifically stated for research purposes. All events hosted by a USG entity and by outside groups on behalf of the USG shall be tobacco-free. For more information on this policy please refer to the University System of Georgia Tobacco-free Campus policy.

**SOLICITATION AND FUNDRAISING**

Solicitation is prohibited on University Housing property. Fundraising in residence halls and apartment buildings is limited to housing-sponsored fundraising organizations. Fundraising may only take place in the designated areas of the housing facilities.

Non-housing student groups may only fundraise outside of residential communities. Fundraising activities outside the halls must comply with guidelines set forth by the department of Engagement, Leadership and Service.

**STAIRS, HALLWAYS, BREEZEWAYS, DECKS AND PATIOS**

All stairs, hallways and breezeways must always be kept clean and free of obstructions. This includes keeping screen doors at University Village properly shut. Trash, loose paper, cans, bottles, furniture, etc., should not be placed in breezeways or grounds near or adjacent to the residence halls and apartments. Dirt, trash, garbage or waste should not be swept out doorways or thrown from windows, breezeways or decks/patios. Laundry, rugs, carpet, etc., may not be placed on breezeway or patio/deck railings. For apartments with private decks/patios, outdoor furniture may be placed in the community if it does not obstruct entrances/exports. The university reserves the right to remove any obstructions that might create unsafe conditions and/or are unsightly.
Specifically, at University Village:

- Bicycles may not be stored in the breezeways or stairwells and must be stored either in the apartment or the bicycle racks provided near each building in accordance with the housing policy.
- Toys or other objects (e.g., hoses, furniture, planters) must not be left in the breezeways or stairwells and may be removed by staff.
- The use of any type of outside clothesline or rack is prohibited.
- Outdoor construction of any kind is prohibited.

Unauthorized Entry or Use of Housing Facilities

Residents are only authorized to enter their assigned unit and can only enter other resident rooms with permission from the assigned resident. Students are not permitted to enter on or into any housing facility, building, office, attic, roof or other university housing-managed or operated property without authorization.

Residents and guests are expected to abide by all signage in the buildings.

Vandalism and Damages

All incidents of vandalism will be documented and reported to the UGA Police Department. Residents are responsible for the condition of their rooms and all the furnishings assigned to them and will be held responsible for damage resulting from vandalism.

If University Housing property is damaged or lost, residents are financially responsible and shall be charged. The department may require residents of an individual room, apartment unit, wing, floor, suite or residence hall to share the expense of repairing or replacing property in common area (such as hallways, studies, lobbies or areas immediately adjacent to the building) when such repairs are determined to be above and beyond normal wear and tear.

University Housing staff will determine charges for damage and cleaning; residents may not replace or repair damaged items. Residents who owe $5 or more in damages may be assessed a charge through Bursar and Treasury Services for group billing. Residents who fail to pay the assessed charges may have their records flagged, which prevents them from registering, obtaining transcripts or receiving grades.

The intentional or reckless destruction or dismantling of any university property or equipment may result in restitution fees, student conduct proceedings, referral to law enforcement, and/or termination of the housing contract.

Due to the severity of the safety concern, damage or destruction to emergency/fire safety equipment (e.g., exit signs, sprinkler heads, smoke detectors or pull stations) may incur a charge per item for replacement or repair (for example, exit sign damage minimum charge is $395).

Visitation

Residents must abide by the visitation option designated for their respective residential facility and the policies set forth for overnight guests, host responsibilities and escorting guests. Consideration must be given to the individual rights and needs of roommates, suitemates and neighbors.
Roommate’s rights have priority over guest’s rights. A guest is defined as any individual who has not executed a contract for the residential space they are visiting. This person is being hosted by the resident of that space.

Specific guest regulations are to be determined and mutually agreed upon by the roommates within each room, suite or unit. These regulations can further restrict the current visitation policy, but not broaden. If consensus cannot be met independently, staff will assist in creating a written agreement with the roommates.

Visitation designations
Buildings are assigned one of two visitation designations:
- **Visitation 1 (restricted)**: Visitation permitted Monday through Thursday from 10 a.m. to 2 a.m. and beginning at 10 a.m. Friday through Saturday and ending at 2 a.m. Monday (Sunday night).
- **Visitation 2 (24/7)**: Visitation permitted 24 hours a day, seven days a week.

Each of the visitation maximum parameters may be reduced, but not expanded, by a resident vote and approval of the executive director. This policy is designed to protect the privacy of each resident.

Overnight guests
Residents hosting guests overnight in their rooms must abide by the following conditions:
- The guest’s stay does not exceed three consecutive nights; situations requiring additional nights must be approved by graduate or professional staff
- Each resident is limited to a total of nine nights per semester in which they may have guests stay overnight. Exceeding these guidelines will be considered infringement on the rights of the other resident(s) in the room, suite or unit
- The hosting student is a resident of where the guest will stay. If the guest or student will use the bed belonging to the student’s roommate, the host must first obtain their permission
- University Village residents who execute a contract for the entire unit are limited to 14 nights per semester in which they may have guests stay overnight. Overnight guests may stay no longer than five consecutive nights. Residents may request an extension of no more than nine consecutive nights for their guest by contacting the University Village residence hall director by email at least a month in advance of the date of the expected visit. The RHD will decide whether the extension is granted and will contact the resident by email

Host responsibilities
- Residents are responsible for the actions of their guests
- A resident may be found responsible for violating the host responsibility policy for any violations or infractions committed by their guests
- It is the residents’ responsibility to inform guests of any University Housing and University of Georgia policies, including the visitation policy

Escorting guests
- Guests should make prior arrangements to meet their host at the entry point prior to their arrival
• All guests must be escorted by a resident of the building everywhere in the building, 24 hours a day

WINDOWS AND SCREENS
• Unlatching or the removal of window screens or window stoppers is prohibited unless under emergency situations
• Entering and/or exiting the residence hall through a window is prohibited except in case of emergencies
• Damage to the window, screen or any mechanism may result in the resident being financially responsible for its repair or replacement.
• Defenestration, defined as an act of throwing someone or something out of a window, is prohibited
• No items are allowed to hang outside of a window

UNIVERSITY HOUSING STAFF
University Housing is responsible for all residence hall matters, including building security, physical facilities, staffing, programs, room assignments, budgeting, policy formulation and hall government advising. The following is a brief overview of select student and professional staff roles within the department.

HOUSING STAFF RESOURCES
Administrative Specialists
Among a myriad of community office administrative duties, administrative specialists supervise the student office staff, oversee the office operations and provide administrative support for the full-time staff. Administrative specialists are also available to assist residents and guests with any questions or concerns they may have.

Assistant Directors (AD)
Assistant directors manage the comprehensive operations of residential areas with approximately 2,000-3,500 students. They supervise residence hall directors and administrative specialists, coordinate community-building events and educational activities spanning the halls and the university community, oversee student personnel, respond to behavioral and developmental needs of residents, and manage the opening and closing of the residence halls.

Residential Building Services Workers (RBSW)
Residential building services workers are full-time staff members who clean the common areas of the buildings to ensure a quality living environment for students.

Residential Belonging Assistants (RBA)
Residential belonging assistants (RBAs) are peer leaders who live among students in residential communities and enhance the on-campus experience by creating thriving and inclusive communities. RBAs promote social awareness and responsibility by facilitating community building events and learning activities designed to connect students with each other and to resources that promote belonging.

Community Services Assistants (CSA)
Community services assistants are student workers who staff the community desks for all residential communities. They are responsible for tasks that include checking the ID cards of residents, checking out temporary keys, distributing mail and answering phone calls.
**Graduate Residents (GR)**
Graduate residents are graduate students responsible for the general supervision and management within their assigned residence hall. GRs provide basic academic and personal advising for individuals and groups of students and assist in developmental learning activities, facilities management, community building and sense-of-belonging efforts and other special projects. Some GRs supervise RAs and CSAs, while others support academic and leadership efforts for University Housing.

**Residence Hall Directors (RHD)**
Residence hall directors are full-time, live-in professional staff members who advise community councils, supervise student staff, coordinate community and learning events, and support the assistant director in the day-to-day administration of the residence halls and apartments. Some RHDs supervise GRs.

**Resident Assistants (RA)**
Resident assistants (RAs) are peer leaders who live among students in residential communities. RAs develop meaningful relationships with and shape the learning experience of residents in their community. With an emphasis on community building, interpersonal skills, social awareness and responsibility, and wellbeing, RAs facilitate community involvement, assist in the management of student concerns and educate residents on their responsibilities as members of a residential community.

**Residential Leadership Coordinator**
The residential leadership coordinator oversees leadership initiatives within the residence halls such as community council and serves as the advisor to student leadership organizations including the Residence Hall Association (RHA) and the National Residence Hall Honorary (NRHH).

**Coordinator for Residential Education and Belonging (CREB)**
The coordinator for residential education and belonging’s primary focus is on maintaining an inclusive community by promoting belonging and healthy living environments within residential communities. The coordinator oversees the residential belonging assistant program and coordinates belonging efforts within University Housing in collaboration with campus partners.

**Security Staff**
University Housing employs full-time security staff to assist with maintaining the security in and around its facilities. Security guards begin each night at 9 p.m. and remain on duty until 6 a.m. the following morning. Residents may expect to see security guards checking the grounds surrounding the buildings and the parking lots associated with residential facilities. In addition to checking for propped and unsecured doors, the security guards report suspicious behavior to the UGA Police Department. Residents should feel free to engage the security team when they see them in or around the community.

**Skilled Trades Workers (STW)**
These staff members deliver maintenance support services and technical expertise to all community residents through upkeep of building systems and infrastructure, including plumbing, heating/cooling, electrical, carpentry and appliances repair.
ASSIGNMENTS AND CONTRACTS POLICIES AND PROTOCOLS
All students in University Housing are required to execute a contract. The contract defines the terms and conditions of occupancy, the housing rate and procedures for termination of the contract. It is each student’s responsibility to be familiar with the content of the contract. A general version of the contract is available on the housing website. Residents can view their specific contract by logging into The Dawg House.

In addition to the contract, students should visit the housing website at https://housing.uga.edu/ and check their UGA email accounts for important information regarding their assignment and the assignments process and policies, eligibility to live on campus, housing dates and break periods, and check-in and checkout procedures. For questions or clarification of information, please contact the central housing office located in Russell Hall at 706-542-1421 or https://housing.uga.edu/

OCCUPANCY
Individuals may not occupy any space to which they have not been assigned (originally or through approved room swap, waitlist or other authorized process), even if it appears to be vacant. Residents must ensure that any shared unassigned space, including furnishings, is always in a condition ready for a new occupant.

CONTRACT REVIEW PROCESS

SERVICES FOR STUDENTS WITH DISABILITIES
Room accommodations for students with disabilities
The university strives to reasonably accommodate persons with disabilities in accordance with applicable laws and policies. Students requesting housing accommodations due to a disability must register with the Disability Resource Center (DRC). Once approved, the DRC coordinator will communicate the appropriate housing accommodation needs to University Housing. Students are encouraged to allow adequate time for the DRC to review the request and suggest needed accommodations prior to the start of University Housing’s room assignment process beginning around May 1 for fall assignments and December 1 for spring assignments. This will provide housing staff the necessary time to arrange for the accommodation request. For questions regarding accommodations, please contact University Housing at 706-542-1421 or housing@uga.edu.

Additional student accommodations
University Housing is committed to working with students who have accommodation needs that are not served through the DRC (e.g., medical reasons, navigating gender assignments, alternative housing options). Students can reach out to Kim Ellis, associate director for assignments and contracts at 706-542-1421 or kimellis@uga.edu, if guidance or assistance is needed.

Service animals
Residents who are accompanied by service animals must notify University Housing in writing at housing@uga.edu and sign the appropriate service animal verification form prior to the animal residing in University Housing. Students are also encouraged to register with the Disability Resource Center (DRC) in case other housing or campus accommodations are needed.
Service animals in training
All students who wish to serve as a trainer for a service animal must register with the Disability Resource Center (DRC). Upon receiving notification from DRC, the associate director for assignments and contracts or their designee will send the resident a copy of the housing policy and agreement form. These must be read, signed by the potential trainer and all roommates, and returned to housing@uga.edu prior to the animal residing on campus.

Puppy raisers and alternates
All students who wish to serve as a puppy raiser or alternate raiser for a service animal must be sponsored by an agency that works with the training of such animals (e.g., The Guide Dog Foundation). Sponsoring agencies must provide University Housing with a list of puppy raisers no later than February 1 for the upcoming academic year. A list of alternate raisers is provided by sponsoring agencies no later than July 1 for fall alternates and December 1 for spring alternates.

Upon receiving notification from the sponsoring agency, the associate director for assignments and contracts or their designee will send the resident a copy of the housing policy and agreement form. These must be read, signed by the potential raiser/alternate and all roommates, and returned to housing@uga.edu prior to the animal residing on campus. Students who plan to serve as puppy raisers or alternates must also register with the Disability Resource Center (DRC).

Emotional support animals (ESA)
Students who wish to have an ESA in their residence hall or apartment first must register with the Disability Resource Center (DRC) to obtain approval for the animal. This approval is limited to one ESA and is granted for only the period of the student’s current contract. Upon receiving notification from DRC, the associate director for assignments and contracts or their designee will send the resident a copy of the housing policy and an ESA agreement form. These must be read, signed and returned to housing@uga.edu prior to the animal residing on campus.

SUMMER HOUSING
A limited number of halls will be open to accommodate students enrolled in summer classes. Students who want to live in University Housing during this period must submit a summer housing application. Contact the central housing office 706-542-1421 for more information.

GENERAL INFORMATION

ABANDONED ITEMS/LOST AND FOUND
Abandoned property with a known owner that is found in and around housing facilities will be donated or discarded when reasonable attempts to contact the owner fail. Lost items will be stored at the community desk closest to where the item(s) was found for 30 calendar days. Valuable items will be turned into the UGA Police Department.

AIR CONDITIONING, HEATING AND VENTILATION
A thermostat is in most rooms and apartment units to monitor heating, ventilation and air conditioning. In most buildings, residents are allowed a range of control for the thermostat. For questions about operating the thermostat, please contact the appropriate residence hall director.
ASBESTOS AWARENESS
In support of a statement issued by the Office of Environmental Affairs of the University System of Georgia, University Housing wishes to notify building occupants and users that building materials containing asbestos may be present in UGA campus buildings, including residential facilities. Asbestos was commonly used as an insulating and fireproofing material throughout the nation into the late 20th century. Possible asbestos containing materials might include pipe insulation, spray-applied ceilings, fireproofing, plaster, wall sealant and floor tile. Asbestos in an undisturbed state poses no significant health concerns. As such, residents should not grind, hammer, screw, drill, sand or saw into any of the building materials or walls in their rooms or anywhere else in the residence halls or apartments.

CAMERAS
University Housing has cameras in public areas inside the residence halls (including all secure access points, lobbies and stairwells) and along the exterior of buildings. Digital motion recordings from the cameras are stored for 30 days. These cameras allow staff to identify safety and security issues throughout University Housing property and can be accessed by University Housing security staff and the UGA Police Department.

CLEANING
The student is generally responsible for maintaining the cleanliness of their assigned space, including private and shared bathrooms. University Housing provides cleaning services for all community bathrooms. Residents are responsible for cleaning their own private, apartment and suite bathrooms.

COMMUNITY DESK
The community desk serves as a resource for the residents of each community. Community services assistants (CSAs) working the desks distribute mail, answer phone calls, check IDs of residents entering the building and issue temporary keys in the event of a lockout or misplaced key.

COMMUNITY ROOM RESERVATIONS
Designated common spaces in each community may be reserved for programs and meetings. For complete information about the available hours, guidelines and fees, call the appropriate community office or visit https://housing.uga.edu/sa_docs/staff/forms_residences_facilitiesreservation.pdf. Spaces are available on a first-come, first-served basis and priority is given to residents and housing staff members.

COMMUNITY TELEVISIONS
University Cablevision, the University of Georgia’s all-digital on-campus cable TV system, is available in various lounges in each residence hall. HDMI connections for game consoles, laptop computers and other streaming devices are available in most common community TV locations. Students must bring their own HDMI cord to connect to these TVs.

EMAIL COMMUNICATIONS
Email is the University of Georgia’s official method of communication. University Housing regularly distributes official communication to residents via their UGA email accounts. Residents should check their account regularly for important housing information regarding
room sign-up, break schedules, checkout procedures, student conduct notifications and other announcements. Every student is responsible for information sent to them.

ENVIRONMENTAL SUSTAINABILITY
University Housing recommends its residents develop and maintain ecologically sustainable living habits. This includes turning off unnecessary electrical appliances and minimizing student use of water and recycling.

- Bring a water bottle/utensils/mugs to limit single-use plastics. Most residence halls have water refill stations with cold filtered water
- Many residence halls have compost bins and plastic film collection bins. Find locations and descriptions of what can and cannot be composted or recycled at: [https://housing.uga.edu/about-us/sustainability/](https://housing.uga.edu/about-us/sustainability/)
- Help conserve unnecessary electricity demands by turning off lights and appliances when not in use
- Never leave computers, televisions and lights on when not at home
- Recycle properly in convenient recycling bins located within and exterior to each building. Bins with green lids are for recycling (paper, cardboard, aluminum, and most plastic products). Bins with black lids are for landfill waste (single use coffee cups, food, foam, and plastic film).
- The average shower uses 1 gallon of water per minute—take shorter showers to conserve water
- Report any leaks (e.g., dripping faucets, showers) to the Work Control Office at 706-542-3999 or [https://workrequest.housing.uga.edu/](https://workrequest.housing.uga.edu/)
- Use LED light bulbs where appropriate as they last longer than incandescent bulbs and use significantly less power
- Purchase energy efficient or ENERGY STAR®-compliant sound systems, alarm clocks, computers, refrigerators and televisions as certified by the U.S. Environmental Protection Agency. For more information visit [https://www.energystar.gov/](https://www.energystar.gov/)
- Develop good sustainable living habits and encourage friends to do the same. Everyone will benefit. Contact University Housing Sustainability Coordinator, Sarah Hatley ([Sarah.Hatley@uga.edu](mailto:Sarah.Hatley@uga.edu)) with any questions or concerns about sustainability initiatives

For more information regarding sustainability efforts please visit [https://housing.uga.edu/about-us/sustainability/](https://housing.uga.edu/about-us/sustainability/)

HEALTH AND SAFETY CHECKS
Proactive health and safety checks are completed at least once each semester to ensure living environments remain comfortable, safe and clean. During a health and safety check, a resident assistant, skilled trades worker, residential building services worker, residence hall director and/or an assistant director will enter each room/unit to look for any potential or emerging facilities-related concerns. This inspection also involves checking sprinklers, smoke detectors and other life-safety equipment, as well as the presence and condition of housing furniture.

Residents will receive advance notice of scheduled health and safety checks and do not need to be present in the space at that time.

HEALTHY LIVING ENVIRONMENTS
As part of a community, the responsibility is on all students to help maintain a healthy environment in the residence halls and apartments.
To help ensure optimum air quality:

- Avoid tossing backpacks or clothes worn outside on the bed to prevent spreading allergens to the sleeping area
- Use washable area rugs with low-pile instead of high-pile carpeting and vacuum weekly with a vacuum cleaner that has a small-particle or high-efficiency particulate air (HEPA) filter
- Use washable curtains made of plain cotton or synthetic fabric
- Close windows and rely on air conditioning during pollen season
- Damp-mop or vacuum flooring
- Use a damp cloth to clean other surfaces, including the tops of doors, windowsills and window frames
- Hang damp or wet towels, bathmats, clothing or other items immediately on racks and allow items to dry completely. Do not hang damp or wet items over the furniture in the room or closet doors
- Ensure that furniture or other items do not block the vents in the room
- Report any concerns by submitting a work request

For more information on how University Housing and its residents work together for a healthy living environment, visit https://housing.uga.edu/student-wellbeing

INTERNET CONNECTIVITY
All residence hall rooms and apartments are wired for high-speed internet connections with a switched Ethernet system. Students wishing to connect to the wired Ethernet ports will need a personal computer with an Ethernet card and cable. For internet connectivity issues, contact Student Technology Support at https://eits.uga.edu/support/ or call student technical support at 706-542-3106.

Wireless coverage is provided by EITS through PAWS-Secure. Personal wireless access points and wireless routers are prohibited in all UGA residential facilities. If personal wireless routers are detected on the network, EITS may either block the IP or MAC address of the router or block the entire port in the room. Residents will then be contacted by EITS and may be referred to the Office of Student Conduct.

LAUNDRY FACILITIES
Washers and dryers are located throughout each community. Instructions for the use of community machines are posted in each laundry room. These machines may only be used by residents of the community to clean their personal items. There is no additional cost to use the machines.

To report damage or repair issues with the community laundry machines, call the laundry vendor, Caldwell and Gregory, at 1-800-927-9274 or email service@caldwellandgregory.com.

Damages or repair issues with laundry machines in University Village Building G apartments should be reported by submitting a work request by calling 706-542-3999 or online at workrequest.housing.uga.edu.

The university does not assume any liability for damage to, loss of or theft of personal property. Contact the UGA Police Department for any thefts that occur.
LIFE SAVING RESOURCES
University Housing residence halls are part of the university’s Narcan/Naloxone Emergency ONEbox Distribution Program. All residence halls also have automatic external defibrillators (AEDs), which can be used to revive someone from sudden cardiac arrest.

ONEboxes and AEDs are located in public areas of each residence hall where staff and residents can easily access them.

MAIL AND PACKAGES

Residence Halls
U.S. mail is delivered Monday–Friday, excluding holidays. Private delivery services deliver packages seven days a week. Residents may pick up mail and packages from their designated community desk 24 hours a day, seven days a week when residence halls are open. All mail and packages are logged for tracking purposes. After an item is logged, the resident will receive a notification via email and will have 10 calendar days to pick up their mail/package. Residents will be required to show their student identification when claiming their mail or package. After 10 days, unclaimed mail and packages will be returned to the sender. In some cases, private delivery services refuse to return unclaimed packages. In these situations, unclaimed packages will be donated or discarded.

For residents in traditional residence halls, mailing addresses for mail and packages are available by choosing a building in the Explore Options section of the housing website. Street numbers and zip codes can be found on the individual residence hall pages.

First-class mail is forwarded for one year after checkout. All other mail is returned to the U.S. Postal Service for further handling. For questions regarding private delivery services (e.g., Amazon), contact the provider directly.

University Village and UV East
United States Postal Service (USPS) mail carriers place mail in central mailboxes assigned to each unit of University Village and UV East. The assigned mailbox is the same number as the unit number. It is important that each resident who intends to receive mail have their name clearly labeled inside the mailbox so the USPS mail carrier can identify who lives in the unit. In shared units, residents will also share a mailbox. Residents access their mailbox with their apartment key. Any outgoing mail should be placed in the box provided next to the mailboxes or dropped off at the community office. University Housing staff members do not have access to these boxes.

Private delivery services deliver packages to the resident’s door seven days a week.

RESPONSIBILITY FOR STUDENT PROPERTY
Although every effort is made to optimize security, the university cannot assume responsibility for the loss or damage of student property; students or their parents or guardians are encouraged to carry appropriate renter’s insurance. GradGuard is University Housing’s preferred vendor offering student-focused personal property and personal liability coverage.

As the university is not responsible for the loss, damage or maintenance of items purchased or leased by students, residents are encouraged to lock their doors to reduce the threat of theft of their belongings. Residents with questions about damage/loss to personal property should consult with the community office staff.
STAFF AVAILABILITY
The community offices are open 8 a.m.–5 p.m., Monday through Friday. During these hours, the administrative specialist, assistant director, residence hall director(s), maintenance staff and residential building services workers are accessible. Staff members are also on call weekdays from 5 p.m. to 8 a.m. and 24 hours on weekends beginning at 5 p.m. on Friday and ending Monday at 8 a.m. On-call staff respond to emergencies and major facilities issues. If residents cannot locate an RA for assistance, they may call their community desk to contact an available staff member.

STUDENT EMPLOYMENT
University Housing is one of the largest employers of students on campus. Student positions include community services assistants, maintenance assistants/painters, resident assistants, residential belonging assistants, social media ambassadors and various graduate staff positions. For more information about these positions—which have specific application and selection processes—contact one of our community offices or check out the student employment section of the housing website.

TOILETS (LOW FLOW)
To prevent an overflow:
- Make sure limited amounts of paper are flushed at any one time
- Do not dispose of feminine products or personal wipes in the toilets
- If the toilet does not flush properly the first time, do not flush a second time. Doing so will cause an overflow
- Should the toilet overflow, turn off water using the cut-off valve under the toilet
- Turning off the water during an overflow will prevent a lot of water from flowing into the room or apartment

If the problem is not resolved, call in a work request immediately at 706-542-3999 or contact the respective community desk.

TORNADO WARNING
A tornado warning indicates that a tornado has been sighted in the immediate community. UGAAlert is activated in the event of a tornado warning for Athens-Clarke County. City sirens may also sound at a steady blast or tone for three to five minutes to signal a tornado warning. Local FM, television stations and housing digital signs may also be a source for tornado warning information. Staff and residents should proceed to the designated tornado shelter location at once—shelter locations for each building are located at the end of this Community Guide. Residents remain in the building in areas away from windows with doors closed. For the apartments, residents should proceed to the bathroom in their unit or other interior locations with no windows. Remain sheltered until the siren is silenced, indicating that the immediate danger has passed. UGA Alert will issue an “all clear” to notify students when the tornado warning has passed. Residents are encouraged to remain indoors, away from windows and on the lowest floor of buildings during this critical time.

TORNADO WATCH
A tornado watch signifies atmospheric conditions are such that a tornado could develop. The National Weather Service issues tornado watches for specific time periods and geographic areas. Although a tornado watch does not represent imminent danger, it should not be treated lightly. Residents should monitor weather and begin taking precautionary measures. Residents should take the time to review tornado warning procedures located on the Office of Emergency Preparedness website at https://prepare.uga.edu/severe-weather/.
UGA ALERT
Every resident is encouraged to participate in UGA Alert, the mass emergency notification system employed by the University of Georgia Office of Emergency Preparedness to contact students, faculty and staff. Participants may submit up to three telephone numbers and two email addresses to be automatically contacted should a severe threat to public safety and the health of the entire campus be identified. A valid UGA MyID is required to activate this service. For more information and to sign up to participate, please visit https://emergency.uga.edu/ugaalert/.

UGA SAFE
The UGA SAFE app offers users several important safety features. Students with the app can access emergency resources, use the mobile BlueLight function, view transit information to name a few. More information about the UGA SAFE app is available at prepare.uga.edu/uga-safe. Please contact the Office of Emergency Preparedness at prepare@uga.edu or 706-542-5845 with any questions.

WORK REQUESTS
University Housing provides routine maintenance to the residence halls and apartments. Residents who wish to request routine repairs should submit a work request online at https://workrequest.housing.uga.edu/. If residents have an urgent daytime request, they should call the Work Control Office at 706-542-3999 or the community desk. In the event of an after-hours emergency, contact the 24-hour community desk immediately. Although there is no charge for routine maintenance, a fee may be assessed to the resident for repairs made for damages that go beyond normal wear and tear.

COMMUNITY ACTIVITIES
ENGAGEMENT OPPORTUNITIES
Residence hall communities provide an environment for students to live and learn together. Our staff facilitate events and other engagement opportunities that allow students to interact and develop relationships with one another. Events and activities may vary from community to community, however, each student, regardless of residence hall, will have an enriching, educational experience.

Residents are encouraged to take part in these events or develop their own ideas to share their talents. Residents can view upcoming events on the Campus Involvement Network and by looking out for flyers in their community.

COMMUNITY COUNCILS
The primary governing bodies in our halls are community councils composed of elected officers and representatives of residents within that hall. Taking part in community council is an excellent way to develop leadership skills, make friends, and become involved in the community. Using hall programming funds, these groups plan events for their respective hall at regularly scheduled meetings.

Although community councils may vary slightly from community to community, each group’s purpose is the same: to implement events and activities that respond to the needs and requests of residents on issues that affect their living environments. Community council elections will
happen in early September. To get more information or express interest in serving on a community council students may complete a Community Council Interest Form.

RESIDENCE HALL ASSOCIATION (RHA)
RHA is a coordinating body among the communities and consists of an executive board of residents and at least one elected representative from each community council. As an advocate for residents throughout campus, RHA works with housing staff and residents to help develop policies, procedures, programs and facilities. RHA sponsors many large-scale programs on campus such as “Dawg Fest,” holds leadership forums and co-sponsors many events on campus. In a cooperative effort with the community councils, RHA strives to foster camaraderie among residents and communities across campus. RHA also provides opportunities to travel around the country to attend leadership conferences. To learn more about RHA, visit the website at https://housing.uga.edu/rha/

NATIONAL RESIDENCE HALL HONORARY (NRHH)
NRHH is the recognition branch of the Residence Hall Association. NRHH advocates for the interests and welfare of residence hall students, while also providing opportunities for their personal growth and development. NRHH strives to provide recognition for individuals who have contributed to the advancement of college and university housing. It ensures the advancement of member chapters through resource sharing, programming, and leadership development opportunities to contribute and support the vision of the National Association of College and University Residence Halls. To learn more about NRHH, visit their website at https://housing.uga.edu/nrhh/

IMPORTANT PHONE NUMBERS

Athens-Clarke County and the University of Georgia operate within a ten-digit dialing system. The 706 area code must be dialed when making local calls.
